Our President's Message

Welcome Gary Rodriguez!

Gary is a new Maintenance Technician at Patrick Family Housing. Before joining the team, Gary had a very rewarding 33 year career with the U.S. Fish and Wildlife Service. During this time, he served as an Engineering Equipment Operator, Instructor, Facilities Operation Specialist and Law Enforcement. He was lucky enough to travel to some fun destinations in the Caribbean and Death Valley, Nevada.

For his next chapter, Gary and his wife Tammy decided to leave the West Coast of Oregon for something more tropical. They set out on an adventure across the United States to the East Coast of Florida. Here, they are excited to explore the Space Coast!

Working on Patrick Space Force Base gives Gary a sense of pride serving America's young men and women who serve our country. He's looking forward to taking care of our resident's maintenance needs and getting to know each one of them. Be sure to wave when you see him out in the neighborhood!

As we welcome warmer days and longer nights, we also look to a future of doors opening back up and life returning to a new normal. I want to personally thank you for your patience this past year as we all navigated the safest way to serve our residents, employees, and our partners. It was not easy to manage an unexpected

pandemic, but we did so, always keeping our residents' best interests and safety first and foremost. Over the course of the next month, we hope to begin opening up our amenities (as appropriate and approved by local guidelines) and see a full return of staff to our offices. Our teams look forward to seeing you and helping you in any way we can. And as a reminder, one of the best ways to help minimize the spread of COVID-19 is to get vaccinated. If you are having difficulties finding a location where you can receive your vaccination, please check out vaccinefinder.org.

Best,

John Ehle
