SUMMER SAFETY TIPS

Fireworks are prohibited in housing areas. BE SAFE! Leave fireworks to professionals- attend a public display.

Did you know sparklers burn at more than 100 degrees? They get hot enough to melt glass! Consider providing kids with glow sticks or flashlights instead.

Keep a bucket of water or a garden hose handy in case of fire or other mishap when using grills, smokers, torches or outdoor candles.

Make sunscreen part of your routine- kids, too! Keep everyone well hydrated and ensure pets have access to fresh water at all times.

Drain standing water from plant saucers, kids' toys and other areas. Use unscented soaps and lotions and avoid wearing bright colors and floral prints to minimize insect bites.
